## HOUSES FOR SALE ON MERCURY

This is the kind of house on Mercury. It shows some pictures above. Check it out and you might like the house. It is just \$10 here. It has a big yard and a big inside of the house. Your kids might just love it because they get their own room. There are 8 rooms in this house. It is very hot here, 840 degrees Fahrenheit, but you get a free space suit and free AC and a fan on your suit.

There is a pic of Mercury up there to see. The people next door to you are really cool aliens. If your friends don't know just tell them and you have more next door neighbors. There will be good schools here and your life will be better. That is why you should come to Mercury. There are more pictures down below.

This is the outside of the house and a great place to play with your kids. When its summer you can get rocks out of the way and put a pool out.

This is the kitchen. It is pretty desnet. Its a great place to party and a fun place to cook because you float! As soon as you move in you dont have to worry about food because we have already bought it.

Here is some pics about the furture and the floor. This stuff is free that is in your home and you could float instead of jumping on your couch.

This is a nother picture of Mecury. You can pick any place on mercury for hose. There is alot of free space. Alot of good stores to get your grocerys and toys and stuff.
