

Reflection

Collin and Tommy

We think that some of the things we did well was the presentation and thorough research. In our presentation we think that we translated our information quite fluently so everyone could understand. Also, we were able to answer all the questions asked. The reason why we think we did such thorough research is because we covered just about all the information we could find.

We think we can do better on the form of our research. We think this because in our notes the information was scattered instead of in nice, neat columns.

We think we've improved on building an orderly keynote. We used to barely be able to even make a keynote! Now, since we were able to combine our skills together we think we made a phenomenal keynote!

We learned how to drag pictures and videos into our Keynote. Before we did this keynote we didn't know that
