Dear The Northeast Company:

We have researched the Zoning Laws and have found out that we will have to make two separate buildings and a few changes to our original plans. We need to use 3/10 of recreation and nature including the wetlands. We need 2/10 for our two restaurants, Casa Grande and Chik-fil-a. We are also going to need a place for people to shop like Aeropostale which will 1/10. All of that added up is equal to 6/10. Also there will have to be parking which will be 1/10 and our housing will be 3/10. Thank you for your time and consideration.

Sincerely, *Madison C.*
