

Name Bruce

What did the architect share that surprised you?

The architect shared the things they ~~you~~ use when they work.

What was the most interesting part of her talk?

My favorite part of the talk was when she was talking about her job.

Describe what you learned about architecture.

What I learned about architecture is that they use lots of tools.

How did the architect use critical thinking or problem solving in his job?

If a mistake was made they would have to go back and do it again.
