

Emma's paragraph
hi my name is emma and i
am going to talk about the
second addition to Short
Pump Elementary School.
Can you imagine going to
school for one whole week
having to climb through a
window to get inside of your
classroom? They were still
working on the school so
there were no doors yet. It
sounds fun but it wasn't
because the windows were
small, dusty and old. Also to

make it even worse the school was surrounded by mud, bugs, and when it was a nasty day outside you would get wet and have to stay in wet clothes all day long. If you wore nice school clothes then they would get ripped and dirty. But it got better throughout time because the second addition to the school was completed. It included 5 classrooms additional restrooms, a library, and a new cafeteria

with a kitchen. Before the additional restrooms the kids had to go outside to go to the bathroom because there was no restrooms inside of the school.

Morgans paragraph
We will now talk about the faculty and PTA staff. Mr Jack Mitchell was very important because he was the first man in 37 years to join the faculty. This is important because not a

single man entered the faculty in 37 years. Mr Kenneth Reese was also very important because he was the first PTA president in 9 years of his gender. Do you know anyone in your school that was the first to join in an event?

Arjun's paragraph
hi my name is arjun and i am going to talk about The principal Miss Bowles. on August 5th wrote a very sad note to the superintendent

Mr. George H. Moody. it said that she could not return to school because she was failing health. After that the PTA sponsored a portrait of Miss Sadie Bowles. They collected and sold bottle caps as a part of their contribution for miss Bowles portrait. The PTA decided to hang her portrait in the entrance hall so that her influence might continue to be felt.
