

Reflection

Meradith
G. #8

① My favorite part was filming it because my group was messing up a lot and it was really funny.

② We worked together by finding research for our script and we asked our questions after that.

③ I would change our poster to make it look more fun and more kid-friendly.

④ I learned that I am smarter than I thought + and I can do harder projects like this.

⑤ This was a fun learning to use the time wisely and to do the best.
