

The Warrior Ways to Respond is a way to help students respond appropriately to adult requests. Students at Henrico have four choices in how they respond when a request is made. The teachers and staff model the appropriate ways to respond as well as body language and tone to create a culture of mutual respect. It is not a student's inappropriate behavior that gets them in trouble. It is usually how a student responds when their inappropriate behavior is being addressed that gets them in trouble. The entire Warrior Nation staff believes that this is a life lesson that will help all "Warriors in Building Their Dreams One Brick at a Time!"
