

VS.6c Influences of geography on the migration of Virginians into western territories.

<b>Tobacco growing made the soil bad...</b>	<b>The West had...</b>	<b>Virginians took with them...</b>	<b>Row A</b>
<b>so farmers looked west for new opportunities.</b>	<b>new opportunities and large areas of land.</b>	<b>their traditions, ideas and cultures.</b>	<b>Row B</b>

**Teaching Tips:**

- Fold an 8 1/2" x 11" paper in half, hamburger fold. .
- On the front, and glue the United States 1783 map and the label found on the next page.
- Lift the "map flap" and glue inside 3 matchbooks using the information listed above.
- To make the matchbooks, fold a piece of 8 1/2 x 11" of paper in another color making a hot dog fold and leaving a 1/2" tab. Fold the tab up to resemble a long matchbook. Glue the rectangles above from row A on top of the matchbook, with the corresponding completion sentence from row B underneath. Cut apart to make three "matchbooks". (There will be extra paper left over.) Glue these on the inside of the map flap foldable. For complete directions on how to construct a matchbook, see your social studies lead teacher for a copy of Dinah Zike's *Big Book of Social Studies*.
- Students can add more details about each or draw pictures to aid memory. For details, refer to the *Curriculum Framework*, page 27.

## VS.6c Influences of geography on the migration of Virginians into western territories.

Glue this map and label to the front of the foldable. Glue the label at the top.

### Why did Virginians migrate south and west after the Revolutionary War?
