

September 26, 2011

Dear Parents,

In preparation for an upcoming science lesson on the concept of float and sink we are asking each student to bring in 2 small items.

We will be testing these items to see if they float or sink. Please only send in items that you do not need back. For example, you could send in a bottle top and a clothes pin. Other items that would work well are popsicle sticks, cotton balls, bottles, clay, buttons, or toothpicks; however, you are welcome to send in other materials as well. Please make sure to send in your child's 2 items by Monday, October 3rd.

Thanks so much,
Mrs. Hutton
