

Science Current Event Chesapeake Bay

You will find an article in either newspaper or magazine (an on-line source is okay as long as it is a news source, such as CNN or NBC.) You will provide the article, cite it, write a short summary, and tell me why you find it interesting. I will be looking for the following things: (Rubric attached)

- 1) Article about the Chesapeake Bay from a news source
- 2) Citation (includes name of source, title of article, author or by-line, and date of publication)
- 3) Short summary. Summary must include:

Who?

Did what?

When?

So what?

- 4) Why was it interesting? What didn't you know before? Why does it matter?
- 5) Fifth grade language arts skills. That means complete sentences for the summary and the opinion, capital letters, punctuation, and reasonable spelling. If a word is in the article, I expect it to be spelled correctly in your current event.
- 6) Due on Tuesday, January 10.
