

## **Mrs. Donham needs your trash!**

Parents,

This year we will be doing several activities in our classroom that involves Children's Engineering. Our first one will begin NEXT WEEK. In order to create our designs, we need materials. Please send in anything on the below list or anything you have around the house that you could part with in order for us to build. If you could please send it in on Friday of this week that would be great! If not, Tuesday of next week will work. This is a great chance for you to recycle old boxes, fabric, cartons, etc. Please make sure the materials are empty and clean before sending them in. Feel free to send things in the entire year as we will be creating all year long! Thanks for your help! I look forward to sharing with you all that your children create!

### **Suggested items:**

cardboard	butter tubs	string
styrofoam	foil	yarn
plastic	foam	clothespins
corks	bubble wrap	paper plates
straws	<b>styrofoam</b> peanuts	paper cups
