

# Noticing as You Read

## **Directions:**

You will read a selection of songs/poems three times each. When you open the document containing the song or poem, click “File” then “Make a copy” to create your own GoogleDoc. Annotate *your copy* of the song/poem as you read.

Wait for instructions before you begin.

**First Read:** “Notice what you notice.” Write down what you find interesting, troubling, or difficult to understand. Write down questions, reactions, etc. Rate your understanding (0-10).

**Second Read:** Do the same as for the first read, but also write down “what changed” during this second reading.

**Third Read:** Do the same, but also write a brief account of “what happened to you” and to your understanding over the course of the three readings. Rate your understanding again (0-10). What questions do you still have?
