

### Part 3: The Conditions

Please do research on the different conditions that you will be experiencing as your travel through the ocean. You will also want to research different equipment and supplies that you would need to travel successfully. You will want to come up with at least three questions that you can answer before you begin your research. You may write down information that you find that does not relate to your questions as you go along.

Exactly how cold is the Abyss? <sup>near</sup> freezing

Exactly how much pressure is there in the Abyss? tremendous amounts of pressure

Is there going to be some light from sea creatures?

There is no light in the Abyss zone.

Right now it is not possible to scuba dive in the Abyss. If it was possible then you would need something that can withstand high pressure, freezing cold water, and no light.
