

Exploration (Research)

Part 1: The Zones

You must do further research on the different zones that you and your group will travel through. Please come up with at least three questions that you want to answer before you begin. You may write down information that you find that does not relate to your questions as you go along.

the Abyss

How deep does the Abyss go down? \leftarrow 2,000 to 6,000 meters

Does the Abyss have a lot of seamounts or ocean ridges?

How deep does the trenches go down in the Abyss zone? \leftarrow 6,000 m to 12,000 m
