

# Sunlight Zone Exploration (Research)

## Part 1: The Zones

You must do further research on the different zones that you and your group will travel through. Please come up with at least three questions that you want to answer before you begin. You may write down information that you find that does not relate to your questions as you go along.

Ask.com

1. What is the temperature of the water?  
How warm?

104°F to 27°F depending on the location

Ask.com

2. How much sun does the Sunlight Zone get? Is it clear under water? Can you see everything because of the sunlight?

Very warm - Sunlight can travel through the water 200 meters or 600 ft deep

3. How deep is the sunlight zone?

It goes down about 600 ft.
